FINANCE AND TRADE.

Madison Street had a little change from its monotony yesterday owing to some auction sales of stocks. Everything else was dull except the demand for money, which has set in with a vigor and persistence that is surprising after the long period of inactivity in capital. Then times before November' is the comment of the knowing ones upon this state of things. Exchange again was in small supply at the former quotations; New York and Boston buying at par, selling at ‡ premium; New Orients buying at † discount. For gold one were effecting 195. Mr. Trezevant sold the following by anction at "Heathen Chinee Corner": 437 shares Charleston ratiroad stock at 15e; \$4000 elty g as stock at 90c, \$2000 at 88s, and \$800 at \$74c. The prices were lower "Tight times before November" is the \$800 at 57 c. The prices were lower \$26 in store than at previous sales, which is explained by the fact of money being more wanted, as a general thing, than stocks, just at this time. In Charleston there is aspicion of some bear movement. It is said that there is a considerable demand for shares, and the would-be buyers are reducing the marketrate as a preninary to buying all they can grasp;

THE COTTON MARKET WAS WITHOU any approach to animation, but prices were higher, as shown by the official below. The news from the quotations below. The news from the country grows daily more depressing from the excessive drought that has now lasted for weeks, with the thermometer ranging several degrees above the average; this helps to strengthen prices. There was some telegraphing on the last was beard only of one case where ots, but we heard only of one case where it proved successful. Sales amounted to 150 baies, one buyer taking 85 bales of the entire lot. Some stained cotton brought 12c; barely ordinary at 12[c; good ordinary at 14[c. New York steady; demand good; freely met at 17[c; New Orleans was firm at 18[c; at 14c; New Orleans was little at 16cc, Liverpool was steady, closing at 84d; Savanoah quoted 16c; Mobile, 16c; Charleston, 15cc; Galveston, 16cc. The official quotations of the cotton exchange

Ordinstry adling Steady, very light off rings; sales, 150

were sa follows:

COTTON STATEMENT.

The New York Chronicte, Angust 8th, had the following: "The market for cotton on the spot has been stronger and bales; exports to Great Britain, Still more at tive during the past week, and closes at an advance of je to 16jc for low midding uplands. The reports afloat on the street with regard to the growing crop have not been so favorably ed as during the previous week; foreign advices have been of firmer and more active markets; the count of stock made public on Monday last showed a falling off of nearly 12,000 bales from the running statement; spinners have been in want of stock, and there has been an selvance in gold. All these circumstances so favorable to holders, produced on Thursday an advance of ic.
with a business aggregating nearly 2000
bales, which is quite large for this period
of the crop season. To day, the market
wax firm, with many holders asking a further advance, but the demana was less active and the
close quiet. For future delivery
the influences at work have been much
the same as in "snots," with a monduced on Thursday an advance of the same as in "spots," with a more largible influence, especially upon the early months. The "shorts" have deemearly months. The "shorts", have deemed it prudent to "cover" their contracts for September—a hint of a possible decreased in the september—a hint of a possible decreased of the september of that month contributing to that course of action. And, indeed, the opposing party seemed quite willing to week £319,000. The bullion in the bank of England has decreased curring the opposing party seemed quite willing to week £319,000. Consols, for money, months in order to enable them to put our contracts for the later months at higher prices than they could otherwise the field of the put of the property of the possible of the corporation of th one contracts for the later mouths at legister protest shan they could otherwise obtain. But the many doubts which have for the fature of business and finances, as well as the result of the growing ctop, induces caution on the past well as the result of the growing ctop, induces caution on the past well as the result of the growing ctop, induces caution on the past well as the result of the growing ctop, induces caution on the past well as the result of the growing ctop, induces caution on the past well as the same days as well as the average. The same procedular paper also says: "Although the yi sid of American cotton for the last three years has averaged the large and that the same days as years ago, and the same days a growing from this contribution of 4,000,000 bales from
